Subject: Outstanding Ice account for 1990.

Dear Bev,

Further to our conversation with respect the above captioned item. Of the \$4386.36 that was outstanding on your initial call, \$1767.00 has been paid. \$939.00 on August 13 and \$828.00 on September 13 of this current year.

The balance of \$2619.36, which are the January and February accounts for the current year will hopefully be cleared off by the end of November.

A further payment will be made in mid October and all going well the final payment should be made prior to the end of November.

I trust that this will meet with your approval, but if it does not will you kindly advise what schedule you would insist on.

In closing I would ask if you could supply us with our rate for this season, and secondly if we could have a phone call at the end of each month to advise us what our account for that month will be. Presently the account arrives quite some time after the end of the month and it makes it hard to keep things current.

I wish to take this opportunity to thank you for all the consideration you have given us in this matter

Yours Truly
Don Ackert
