SEND YOUR FURS TO STORAGE AND YOU SEND YOUR FURS TO SAFETY

We store your furs during the Spring and Summer . . . A simple statement but one that implies the utmost in modern scientific protection. It means safety from moths, moisture, dust, fire and theft, in fact, all trouble or worry on your part at a cost that is truly low for the protection it gives.

We also tan and manufacture any raw fur that you may have, at wholesale cost.

REPAIRING AND REMODELLING AT SUMMER RATES

Our collection of advance designs offers many suggestions for repairing and restyling at the same time. We shall be glad to furnish estimates for this work. Our prices are commendably low.

No merchandise has quicker style changes than laces and insertions and it is therefore impossible to give our customers an adequate idea of the lines carried during the tenure of our Catalogue. Please write us for samples, if none of these descriptions meet your need. When doing so, state for what purpose you require the edging or insertions, and a more intelligent selection can be made for you.

This chart gives the approximate yardage to make garments for those of average height:—women about 5 ft. 3 ins. tall; and children of normal height for their age. In ordering, allow ¼ yard extra for every inch of height above the average. Also, if material has wide stripe or large design to be matched, allow from ½ to ¾ yard extra for a woman's dress.

Always order sufficient material for the garment you wish to make. Better to have a little over than not quite enough. It is sometimes difficult to match goods exactly, if more is required, and a piece left over is useful. Before you begin to cut, lay all pieces of your paper pattern on your goods at once, as instructed, to make sure that your yardage is ample.

Trade In Your Old Radio

In recent months many revolutionary improvements and decided advancements have been made in battery operated radios.

New type two-volt tubes with their very low battery consumption reduces the cost of battery upkeep tremendously and also dispenses with the inconvenience and expense of a storage battery being recharged.

The new sets all use a Superheterodyne circuit, noted for its extreme selectivity (no cross-talk or stations interfering one with another), also it is capable of far greater distance—an important factor in locations great distances from the broadcasting stations.

We can truthfully say that the new two-volt Radios are as perfect in every respect as the most modern electric radios manufactured.

If you are contemplating getting a new radio, write us and we will gladly furnish you with the latest descriptive literature and the lowest prices, and make you a liberal allowance for your old set.

INFORMATION: Regarding Shipping Instructions, C.O.D. Fees, Returned Goods, Etc.

PLEASE NOTE

WHEN WRITING YOUR ORDER, please use our order forms, whenever possible. This insures straight listing and calls for the necessary information—catalogue number, quantity, price, description, total extension, etc., and facilitates the filling of the order with a minimum of delay. Send for more forms when you need them.

Please use one line for each item—do not crowd your list as they often have to be cut and classified.

We would appreciate your quoting your Mail Order Reference Number whenever you correspond regarding an adjustment.

HAVE YOU CHANGED YOUR ADDRESS since sending your last order? If so, kindly mention when ordering, so that we may correct our mailing list.

TO EFFECT THE UTMOST ECONOMY in buying merchandise not listed in our Prepay section, try to bring your order up to 100 lbs. and take advantage of the minimum rate. Should your order include items from the Prepay section, we will make due allowance.

We do not pay shipping charges on merchandise advertised in the newspapers.

PARCEL POST AND EXPRESS SHIPMENTS

Parcels weighing up to fifteen pounds can be sent cheapest by Parcel Post. Should a parcel weigh above the parcel post limit weight, and not exceed twenty-five pounds, the cheapest way to send would be by express.

If you are in doubt leave it to us and we will ship the cheapest way.

When winter letter rates must apply on parcels, only the Parcel Post rate will be paid by us; the difference charged to customer.

EXPLOSIVES, AMMUNITION, ACIDS

As explosives, including carbide, toy pistol caps, fire crackers, or any inflammatory article cannot be sent by Parcel Post, it is necessary to forward such articles by express or freight. Always send sufficient money to cover these charges.

LIQUIDS BY PARCEL POST

Parcel Post regulations prohibit the forwarding of large quantities of fluid in glass containers. When orders are received for such quantities and must be forwarded in a glass or crock, same will be sent by express or freight. When ordering please allow for these charges.

On several occasions receipt of shipments has been delayed because the customer expected the goods shipped by stage, whereas rail was the cheapest route—or vice versa. Remember, we reserve the right to ship the cheapest way.

If you live at a point where there is a choice of shipping facilities, please state on your order which transportation you prefer. We will deduct the charges on the cheapest way and bill you for the balance.

The same applies to shipments by water.

CHINA SHIPMENTS

We cannot hold ourselves responsible for china sent by "mail." Such goods will be shipped by "express" or "freight" unless customer stipulates mail and takes full responsibility.

We reserve the right to forward the cheapest way, whether by Mail, Express or Freight.

C. O. D. FEES

If you order C. O. D., remember that the following additional fees must be paid:

Collection Fee

1c to \$50.00—15c; \$50.00 to \$100.00—30c.

For example, a C.O.D. shipment valued at \$40.00 would cost 15c for collection plus 18c for Money Order fee, in addition to the transportation charges, if any, and the price of the merchandise.

Money Order Fee

1c to \$ 5.00—8c. \$ 5.00 to \$10.00—10c.
\$10.00 to 30.00—15c. 30.00 to 50.00—18c.
50.00 to 60.00—23c. 60.00 to 100.00—28c.

These fees are imposed by the Postal Authorities or Transportation Company.

HOW TO SEND MONEY

You can send money in any of the following ways: Express Money Order, Post Office Money Order or Postal Note. Do not send stamps in payment of order, as it is against the postal regulations.

If you Must Send Cash, do not fail to Register Letter, otherwise it might get lost and could not be traced by the Post Office, then you would lose the amount enclosed. Letters can be registered by your Local Mail Carrier if you live on a Rural Route.

REGARDING ADJUSTMENTS

If, after receiving your order, you should have reason for complaint, be certain to return all the papers that were in the parcel. If no part of your shipment has arrived, send us a copy of your original order, and state how much money was enclosed. If the remittance was made by Postal Note or Money Order, send us the serial number appearing on your receipt.

RETURNED GOODS

Always return goods by Parcel Post whenever possible, wrapped securely and addressed plainly in the upper left-hand corner of the parcel. Address the parcel "Mail Order Department," as this avoids delay. Write us a letter telling us the kind of goods you are returning; the price, your reason for returning; also whether you wish other goods in their place or your money refunded.

It is absolutely necessary for a satisfactory adjustment that you return all the correspondence and papers you received from us in connection with the order.

DO NOT RETURN PART OF A SUIT

When exchanging any part of either a man's or woman's suit, the entire suit must be returned to make a satisfactory exchange.

NON-AGENT STATIONS AND WHARFS

Important to Customers—Provision should be made to take care of shipments at the time of arrival of train or steamer. This applies particularly to points where an agent of the transportation company is not situated at your depot or wharf.

Neither the transportation company nor DAVID SPENCER LIMITED will become responsible in the event of lost shipments after same have been laid down by the transportation company.

100 MILE FREIGHT ALLOWANCE

We prepay freight charges to any point within 100 miles of Vancouver, on all orders amounting to \$10.00 or more, for merchandise selected from this catalogue, with the exception of Lumber, Window Sash, Doors, Wallboard, Groceries, Fruit Sealers and Stone Cocks.

Under the same buying conditions on shipments consigned to points beyond the 100-mile radius from Vancouver, we agree to make allowance for the 100-mile proportion of the freight charges for the total distance. For example, if shipment is made to a point 300 miles from Vancouver, we undertake to pay one-third of the freight costs; other distances in proportion.

When freight charges are paid at destination and a refund of the 100-mile freight allowance is due the customer, we require the transportation company's expense bill to be returned to us.

"CHARGE MY D.A." IS THE EASY WAY

A GREAT CONVENIENCE IN SHOPPING BY MAIL

A "Deposit Account" offers the most convenient way of shopping by mail, doing away with the necessity of enclosing money orders, cheques, or registering money with every order. All you do is send us a large enough deposit to cover your needs for a period and ask us to open a "Deposit Account" for you. We will gladly do so, registering your signature and assigning you an account number. A statement will be mailed to you each month, giving an account of all goods purchased and deposits made, together with the balance to your credit at the end of the month. These statements will be found useful as a record of monthly expenditures.

INTEREST

Interest at 5 per cent. per annum is allowed on daily credit balance up to \$500, and 4 per cent. per annum on any money over \$500. Money may be deposited or balance withdrawn at any time.

DELIVERY CHARGES ARE PAID ON THE UNDER-MENTIONED GOODS SELECTED FROM THIS CATALOGUE

FREIGHT RATES TO POINTS IN B. C.

MINIMUM CHARGE ON GOODS SHIPPED BY RAIL—100 POUNDS FIRST CLASS

The freight rates quoted are "First Class" only, and include the shipping charges on Groceries, Carpets, Butter, Bread, etc. "Second Class" includes Crockery, Hardware, Biscuits, Heaters, under 100 pounds, etc. "Third Class" includes Coal Oil, Canned Goods, Linoleum, Roofing, Paint, Heaters, over 100 pounds, etc. "Fourth Class" covers Cereals, Feed, Flour, Potatoes, etc. While it is not possible to list the entire groups here, nor the prices, customers can gauge a difference of about

16 per cent. between the rate for each class. You may rely upon us to ship your goods by the cheapest route and class possible, whether it is at our expense or yours.

Remember that the "minimum" must always be paid, viz, the amount required for 100 pounds, First Class rate. After this amount has been covered, your shipment goes forward under the classification to which it belongs.

BOYS' CLOTHING

Measure your boy's chest over blouse, drawing tape snugly but not too tightly, close up under the arms and over shoulder blades in back, not above or below them. Don't measure over his coat. State age and chest measure when ordering. Make no extra allowances.
