VANCOUVER, B. C.

CABLE ADDRESS:  
"TRUNKLAND"

August 29th., 1911.

Mr. J. F. B. C. Vance,  
City Hall,  
C i t y.

Dear Sir:

Some days ago we left a power of attorney properly filled out, covering section of land staked in your name in the Lillooet District. When signing contract some little time ago you gave us the right to use your name in staking. However, at that time Mr. Dobson told us that you wished a section in the Beaver Dam country, and we accordingly gave you one by transfer in that district, and later staked your name in another part of the country, in order to have a section to take the place of the one which we had transferred to you. We have paid the Government price of 50¢ per acre on this land, and in order to handle this it will be necessary to have your signature on this document. If we are unable to obtain this we will of course lose the Government payment of \$320. and all other expenses which we have been put to in this regard, and on the other hand you would profit nothing by it, as you could not stake any land in the Lillooet District in any event, as it is all under Government Reserve. The

Coast District is the only district where land can be staked at the present time, and if at any time you wished a section in that locality we would have no trouble in obtaining one for you.

Should you have any objection to signing this document it would necessitate a new transfer being made allotting this section to yourself, and also a transfer of the previous section allottedx to the party to whom we intended to allot this section in your name.

In view of the circumstances which we have explained, we are quite sure that you will see your way clear to sign this paper and save all these extra transfers. The section covered by this power of attorney has not yet been surveyed, and it is therefore rather doubtful as to what classification the Government will place on same, so you will readily see that it would be to your advantage to keep the section now allotted to you, as this has been approved by the Government and goes in under the old price of \$2.50 per acre, while the section in your own name will very probably be \$5. an acre land.

Thanking you in anticipation of your kind attention to the matter, we are,

Yours very truly,

GRAND TRUNK LANDS COMPANY,
