

Rey 2nd - Ho Jot

H.S. Wood - Magistrate

Nov 6 + 7 - 1936

6ccm 6cc for Prosecution

A. J.B. Mellish - for accused

Mellish = accused. name as Ho Chung -
his name never was Ho Jot -

Ho Jot did on Oct 15/36 in Coy
did murder Quan Quan -

W.S. Reid = 5 - Shots - I think

I marked the Bullet

I picked up first Bullet - 8' from body -

I gave it to Sgt Darling -

D. Hunter - Autopsy on Oct 16 -

X Point of entrance 4" below the pelvic bone
on right side - Carving is piece of fabric I thought
cotton fabric - below it came out about

3" below the point of entrance — No Bullet
 was found here — it had passed our body —
 X Taber was placed in container — & handed
 directly to Vance — I handed it directly
 to Vance — City Marshal
 Arr — I am not going to produce that
 any more —

X Hunter — on right Side of neck — behind ear
 is a wound of Entrance — directly from
 above downwards & a short distance below
 this point it came out — grazed the skin —
 forming a friction Burn —

Bullet was not Seen —

Bullet wound on top of head Slightly to left
 of middle line — in the hair line you call it —
 X in the forward portion of the top of the head
 is wound of entrance $\frac{1}{8}$ " in diameter which had
 penetrated the skull to the left — ~~Several~~ ^{these} pieces
 of lead torn from this wound — was placed in a
 container & handed to Vance & myself —

this Bullet passed through the skull — Breaking
 it in several places & carrying with it powder

Marks - his own hair - Coming out
on the under surface of the brain involving
the left cheek —

Bullet entrance wound ^{" documents} at back about
middle line at point about $3\frac{1}{2}$ " between
the crests of the pelvis zone or area where jaws
meet hook — on — Bullet going to left of
Stomach - 45 cal - I put this in a

Container & handed in direct to Vance my Secy -

This is the only Bullet that was
recovered from the Body, wounds

Powder marks in Brain - a blackish
pigmentation on the Skull -

Bar - Did you see hat in Corp -

Hunter - I saw no clothing

Bar - I want Vance to bring 3 skeletons &
produce 2 Bullets —

X Exam = I performed Autops, Oct 16 -
1936 - 1 - pm

I cannot tell the order in which
Bullets were fired

Wound in back was fired from behind -
entrance from behind -

Chinse string around his waist

+ Another wound on right hip or Side was
from rear - a just made a flesh wound -
a superficial wound - - Could be done by
Someone holding gun in right hand -
posterior direction -

+ Hip wound is a hole to left of
of Spinal column - is wound of entrance
close to centre - just on Backbone

X The next one is back of the ear - in
the neck - on left side - a has fracture
Burr was as point of tip - men in
a came out 3" below - Impl, punctured
the skin - a came right out again -
Remains probably pointing downwards -

there was a superficial wound & the entry was
 on top of the head towards the forehead - this
 was an entrance wound & came out of the cheek -
 the Bullet had been cut out from here
~~but not by itself~~ - it had not come out
 by itself

No powder marks on thigh -

Have examined for powder marks before
 I saw body -

I saw no powder on wound as such -

Powder on top of head - there was a
 Blackish discoloration on the Bone - on
 the Skull. - I can say whether or not
 powder or pigment from the lead - I am
 just noting the fact that there is a
 discoloration on the bone & before that bullet
 had gone through the Skull it had I would call
 it - Splintered or a piece of the lead had been -
 Shaved off from the Bullet & had attempted to come
 back and thro' the skin - I picked it out from
 this area -

Re Direct Examination

Q - Did you mark the Bullets Jan Jones
Vance - Yes he -

Q - Is this the container Jan put in -

A - this is - This has been wrapped } Vance -

Q - Is it not the container Jan put in -

A - No it is not -

Q - Did you mark the Bullets -

A - No - the reason for not marking is
is I may interfere with the markings
in it -

Q - Jan can tell if it is the Bullets or not -

A - I can tell pretty well -

Q - Took ~~it~~ as is thru the cellophane -

A - May I open it -

Q - Yes - I think he wanted his number
tags attach -

A - I think this is the same Bullets -

Q - I will put this in the container as
Exhibits B - a lead bullet .45 cal
- end -

~~Read~~

Go to Reid (recalled) - I show Jan an
envelope & 2 pieces of pt - which did
Jan find - in Box -

Read - Just one I found in doorway - handed in
to Supr. Barley -

I picked up large piece - Supr. Barley

Picked up other piece -

2 pieces of lead - 3 inches H -

Identified one piece - the large one -

— 7953 higher —

Head toward ~~down~~ stairs
feet toward West -

on the side

Heavy smell of powder in lane

to Panton -

I took Buell from check + gave it to
Insp. Grant - in reception room of
Morgue - I went out - I did
not mark Buell -

X Exam of B. Panton

Did Jim notice any powder burns or any marks that would indicate how close revolver was to him when it was fired -

(Men 3' apart when shot was fired)

A - I did not examine him for powder Burns - but there were powder Burns on his hat - I took them for powder burns - on his Cap - there was a cap - there was a hole in the cap - and a mark around it that looked to me like powder burns - -

I did not examine clothing -

— end —

Jim found near 143 ~~points~~ Keefer or
Murray after man was shot -

Remarks from Des Morrison -

Morrison Smelled powder from Jim -

{ I do not know if powder smell was
Black or Smoked powder.

9

Morrison Said -

Vance examined for finger prints -

Jim had 2 loaded & 4 empty shells
I didn't take them out -

Q - did Jim turn around the chamber to look
at them

A - no - not until I handed it over to
Vance - Vance turned them -
I saw them -

Chinese witness - Queen Can San
2 shots fired at about 4 paces -
had frog feet hat on -
