

Dear Vance.

Enclosed please find
letter from Chief Thompson.

Have also enclosed one
of our labels as you will note.

Kindly answer the letter at your
earliest convenience as we
are getting into shape pretty well.

I did not bring a can with
me as called in while passing.

Should you need a full
can however will send one up.

40 Ozs. Net Measure

To Treat 200 Gallons

M - P

Increase

*Power
and
Mileage*

Decrease

*Fuel Consumption
and
Carbon Trouble*

MADE IN CANADA

Directions—Add 1 fluid ounce to every 5 gallons of Gasoline, Distillate or Kerosene.

Mixture is made richer, therefore cut off fuel supply by partly closing needle-valve on Carburetor.

Economy- Less fuel to cover same mileage

We Guarantee M. P. to contain No ingredients which can in any way injure the motor, carburetor or connections.

PRICE \$3.00
