# “HAZELINE” (TRADE MARK) SNOW”

Modern woman places “HAZELINE” SNOW”  
first among her toilet requisites because

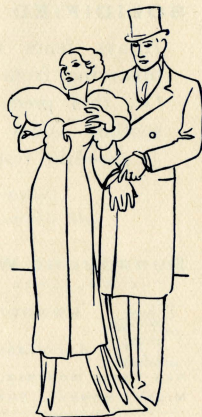

she knows how it whitens and preserves the  
skin, protecting the most delicate complexion from damage  
by wind or sun, . . . . .

she finds in it a perfect base for powder, encouraging it  
to cling most satisfactorily and preventing  
clogging of the pores, . . . . .

she may use it by day or evening, knowing how it will vanish  
beneath her fingers, leaving no trace of greasiness—  
only the much-desired matt surface free from shine, . . . .

and finally because she loves its cool, refreshing fragrance,  
very conscious of that last, elusive touch of charm  
it gives her personality.
