Chemical Engineer -

Dear Sirs:

Mr. G. Dennis O'Hara as a consulting engineer and a non-resident of the Province finds it somewhat difficult to obtain local references. It has therefore been suggested that his application be sent to you for your report.

Will you please closely scrutinize his application and advise the Council confidentially as to your opinion of his qualifications?

Yours very truly,

"E. A. WHEATLEY"

Registrar.

Application
dated Dec 3/25

Mr. Vance

After consideration please forward to Mr.
R. J. Walley, Triangle Chemical Co., New Westminster, B. C.

I recommend the application be granted
Registrar. The qualifications submitted, and
the knowledge shown gained from record in chemical research
being sufficient to justify this action

George Dennis O'Hara

Chemical Engineer

March 19/26

I recommend ~~that~~ the ~~applicant~~ be granted.
Registration - The Qualifications submitted, and
the knowledge I have gained of his record in
Chemical Research being sufficient to justify
this action

Wm H. Hill

Mr G. Dennis O'Hara

March 12/26

I consider ~~that~~ the applicant has
qualifications, which would entitle him to be
registered as a Chemical Engineer. But would
suggest ~~that~~ an interview might clear up
some slight doubt as to his chemical experience

William H. Hill
