

Vancouver Police Department

VANCOUVER, B. C.,

191

up to the point same as Chemical Engineer's
application - and continues as follows (High change)

My term of office so far with the City being over 13 years - during
this period I have also been engaged in metallurgical matters,
having improved upon the present type of pyritic furnace (which is
highly successful on a small scale) and is to be given commercial
trial by U.S. interests on Vancouver Island -
