

A SPECIAL ANNOUNCEMENT

THE Social Register of Canada and its members have long been interested in the cultural development of Canada. Canadians "eminent in the arts, letters and sciences" are honoured in our pages.

Now, the Board of Directors has authorized the establishment of a fund which will provide assistance to promising Canadian artists.

In this connection, it was announced at the recent Dominion Drama Festival that the Social Register of Canada will grant a scholarship to the most promising actor or actress selected by the Adjudicator at the 1962 Festival. The scholarship covers a full year's maintenance and tuition fees at the National Theatre School of Canada.

We thought that you would be interested in learning of this development, which weaves the Social Register even closer into the cultural fabric of the country.
