Vancouver, B.C.
May 22, 1933.

Dr. J. W. McIntosh,
Medical Health Officer,
City Hall,
Vancouver, B. C.

Sir:

I beg to report that application has again been made for permission to receive a temporary supply of milk and cream from the State of Washington for consumption in the City of Vancouver.

It will be necessary to use Food Division auto No. 308 in checking up the farms and herds from which this milk will be received, and also, as in past years, when similar shipments were received, to check the shippers' scores in County and Seattle City records.

Would you kindly give me authority to check and control this situation as occasion may arise.

Respectfully submitted,

John F. C. B. Vance
City, Provincial & Dominion Analyst
Chief Food & Dairy Inspector.
