Dr. F. T. Underhill,
Medical Health Officer,
City Hall, City.

Dear Sir:-

Re Analyzing Liquids Or Solids for Intoxicants.

Referring to your letter of the 30th inst., I beg to say that I am of the opinion as long as you prove alcohol exists in any liquid, it is not necessary to prove the source from which the alcohol was derived.

Yours truly,

" E. F. Jones,"

City Solicitor,
