Victoria, B. C.
26th January, 1914.

John F.C.B. Vance, Esq., F.C.S.,
City Analyst,
Health Department,
Vancouver, B.C.

Dear Sir:-

I am in receipt of yours of the 20th inst. and am exceedingly pleased and relieved to know that you will be able to undertake for us the Bacteriological examinations of the Milk samples in connection with the Competition.

We have to hand some 48 entries for Milk, and 29 for Cream. It was my intention to request you to look after only the Milk samples, but, in case our other arrangements fall through, would it be possible for you to handle the whole thing? It will of course, mean transporting more material to Chilliwack, but I would endeavour to drop you definite word concerning this a little later on.

Yours very truly.

(Signed) Henry Rive.
Secretary, B.C. Dairymen's Association.

HR/VB.
