Navy & Army Canteen Board.

London, Eng.

Dear Sir;-

On Nov 29th, 1917, ten samples of Milk were taken from a shipment of 2000, cases lying at the Balfour, Guthrie Wharf, The Milk was labeled, Tipperary Brand unsweetened, the cases were not marked and there were no means of distinguishing one case from another, I complained to Mr Cromie about this and he states that in future all cases will be numbered. The Analyses of the Milk is as follows,

7. 32%
7. 51%
7. 70%
7. 42%
7. 80%
7. 32%
7. 35%
7. 53%
7. 35%
7. 40%
7. 47%, Average.

Mr Cromie has supplied me with a copy of Cablegram of your acceptance of 7. 80%, Fat content in Milk. Kindly advise me if this is correct.

Yours very truly

M. Cromie
City Analyst.
